

Coach like the pros. Use professional game footage from 21st Century Game Film, Inc. to help take you all the way to the **championship**.

Watching game film is a great teaching aide. At 21st Century Game Film, Inc., we get you the best footage because we video from above the field. From that vantage point, you can more easily determine your team's strengths and weaknesses since you can see where your players are going. Are they filling the gaps correctly? You can see who is blocking correctly and who needs more work in practice. You will **not** be able to get this type of game film by having parents' video your games.

What do you get when we video your games?

- Highly trained videographers taking video with the same equipment used by top **NFL, college and high school** football teams.
- Copies of the game film for up to 4 coaches on DVD or Hi-Definition Blu-Ray disc (See below pricing).
- Hi-Def online video of your game in a team specific area on our website for only you and your team to view.

Contact Tom at 847-636-9501

email:

tom@21stcenturygamefilm.com

to reserve one of our video crews to
tape your game(s).

Cost per game:

Sign up by 8/24 for 3 or more games and pay by 8/26 to get the first game for \$60 with a money back guarantee on the first game.

\$95 Std Definition video on DVDs (up to 4 copies).

\$145 Hi-Definition video on Blu Ray (up to 4 BluRay Discs).

DVDs delivered to head coach within 2 days of the game.

Extra copies: \$5 per DVD, \$10 per Blu Ray disc

Another great use of the game film is to create a year end highlight DVD. You are free to use the video we take or have us create the highlight video for your team.

Check out our web site for examples.
